PROFESSIONAL SUMMARY

Master of Computer Applications (MCA) student with an interest in Python programming, Artificial Intelligence, Machine Learning, and Data Science. Familiar with developing Python applications, working with databases, and implementing basic machine learning algorithms. Passionate about solving real-world problems through technology and continuously improving technical and problem-solving skills. Seeking an opportunity to contribute to software development and AI-driven projects while gaining practical industry experience.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript

Machine Learning & Data Science: NumPy, Pandas, Scikit-learn, Data Preprocessing, Classification, Regression, K-Nearest Neighbors (KNN)

Web Development: HTML5, CSS3, JavaScript, Django

Database Management: MySQL, MariaDB, SQL

Tools & Platforms: Git, GitHub, Visual Studio Code, Google Colab

PROJECTS

1. MEDTRACKER – Digital Medical Record Management System

Technologies: Python, Django, MySQL, HTML, CSS, JavaScript

- Developed a digital medical record management project to organize patient medical information.
- Designed functionality for managing patient records and medical history.
- Worked on database integration and user management.
- Focused on improving medical record accessibility and reducing dependence on paper-based records.

2. Python Expense Tracker

Technologies: Python, Object-Oriented Programming, JSON

- Developed a console-based application to record and manage personal expenses.
- Implemented expense categorization, including food and travel.
- Used JSON file handling for persistent data storage.
- Applied object-oriented programming concepts to organize application functionality.

3. Machine Learning Practice Projects

Technologies: Python, NumPy, Pandas, Scikit-learn

- Practiced machine learning algorithms using Python.
- Explored K-Nearest Neighbors (KNN) classification.
- Implemented Linear Regression and explored prediction using datasets.
- Practiced data analysis, preprocessing, and model evaluation.

EDUCATION

Master of Computer Applications (MCA)
MCA, Musaliar college of engineering & technology
2027

Bachelor's Degree
BCA, Shree Vidyadhiraja College of Arts and Science
2023

AREAS OF INTEREST

- Artificial Intelligence
- Machine Learning
- Data Science
- Python Development
- Software Engineering
- Database Management

SOFT SKILLS

- Problem Solving
- Continuous Learning

- Adaptability
- Team Collaboration
- Analytical Thinking

DECLARATION

I hereby declare that the information provided above is accurate to the best of my knowledge.
